mitochondrial myopathies and the role of the pathologist

August 12th, 2019 - Introduction Mitochondria Mitos Gr Thread Chondros Gr Granule Are of Central Importance in a Wide Diversity of Human Diseases the High Energy Demands of Skeletal Muscle Predispose This Tissue for Frequent Involvement in Mitochondriopathies and It Is the Tissue of Choice for the Pathological Biochemical and Genetic Diagnosis of Mitochondrial Disease Even If Muscle is Not".

Neuromuscular Imaging Has Increasingly Been an Important Tool in the Detection and Diagnosis of Inherited and Acquired Neuromuscular Disease This Book Is a Groundbreaking Radiological and Neurological Overview of Current Methods and Applications of Imaging Including Aspects of Neuroimaging and Musculoskeletal Imaging in Patients with Inherited Metabolic and Inflammatory Muscle Diseases".

FAHR's Syndrome Literature Review of Current Evidence June 4th, 2020 - FAHR's Disease or FAHR's Syndrome Is a Rare Neurological Disorder Characterized by Abnormal Calcified Deposits in Basal Ganglia and Cerebral Cortex. Calcified Deposits Are Made Up of Calcium Carbonate and Calcium Phosphosphate and Are Monly Located in the Basal Ganglia Thalamus Hippocampus Cerebral Cortex Cerebellar Subcortical White Matter and Dentate Nucleus".
